Contractual doctoral student

History of Law – Legal Thought – Tax Law

alexis.lombart@u-bordeaux.fr

Born on September 13, 1994

Areas of research

Focusing on the emergence of the economic substance doctrine in the USA (including its creation and its development in American law, as well as the circulation of the concept throughout the world and especially in Europe and France) my doctoral research aims to understand the elaboration of a legal doctrine using a methodology of History of Ideas enriched by the analytical and computational tools provided by the Social Science and the Digital Humanities, thus promoting mutual understanding of the French and American legal systems.

Work in Progress

Scientific Events

Coordination (with Prof. Nader Hakim) of an international conference for July 2023: *Law, Political Science and the Digital Humanities : Theory and Practice*, University of Bordeaux

Books
