📞 +33 6 52 60 81 65

Political economist specializing in digital sovereignty, European technology governance, and the geopolitics of innovation. My research examines how regulatory frameworks, platform capitalism, and strategic autonomy intersect in shaping global technological orders. Combining comparative political economy and international relations, I focus on Europe's responses to U.S. and Chinese digital power through regulation and industrial policy.

**PROFESSIONAL AND  
ACADEMIC  
EXPERIENCE**

**Guest Lecturer in Geopolitics**

Since September 2025

Université de Bordeaux, Pessac, France

- Teaching graduate-level courses on the geopolitical dynamics of innovation, European digital sovereignty, and the governance of emerging technologies. These courses are part of the multidisciplinary Master's program *Law for Innovation* at the University of Bordeaux.

**Project Research Manager - Graduate Research Programs**

Since September 2024

Université de Bordeaux, Talence, France

- In charge of coordinating international and interdisciplinary graduate programs (Master's and PhD), including project design, academic partnerships, financial and scientific reporting, and compliance with institutional and EU regulations.

**Researcher in Digital Policy and Regulation**

From September 2021 to August 2022

GEODE Géopolitique de la datasphère, Aubervilliers, France

- Eiffel Excellence Scholarship recipient in international mobility at Paris 8 University:

**Assistant professor**

From February 2021 to August 2021

Federal University of Rio de Janeiro, Rio de Janeiro

Undergraduate Courses Taught in Political Science and International Relations

- *International Relations Theory*
- *Security and Defense Theories*
- *History of Major Global Conflicts*
- *Brazilian Foreign Policy and Latin American Politics*

**Selected Scholar, William J. Perry Center for  
Hemispheric Defense Studies**

From June 2019 to October 2019

U.S. Department of Defense / National Defense University, Washington, DC, USA

- Awarded a scholarship to attend a specialized program in Geopolitics and Defense Studies, focused on hemispheric security and Latin American strategic issues.

**Lead Researcher, Scenario Simulation Laboratory**

From March 2018 to June 2021

Brazilian Naval War College (EGN), Ministry of Defense, Rio de Janeiro, RJ, Brazil

- Conducted strategic foresight and geopolitical risk analysis using scenario simulation methodologies. Led interdisciplinary research teams focused on defense policy, emerging technologies, and national security challenges.
